EDUCATION

Michigan State University

East Lansing, MI

B.S. in Computer Science, Concentration: Software Engineering, Minor: Business

May 2026

GPA 3.99

Course Highlights Software Engineering, Web Application Architecture and Development

EXPERIENCE

Magna International

East Lansing, MI

Software Engineering Capstone

January 2026 – Present

- **Developing a web-based CAD AI assistant** using **Python, PyTorch, FreeCAD, JavaScript, and LLMs** to automate part design generation and modifications, expected to cut manual CAD edits by **~35%**
- **Implementing** interactive AI-assisted editing and annotation features to accelerate design iterations and save engineers **2–3 hours per design** by reducing repetitive modeling tasks

PromoterMotor

Remote

Software Engineering Intern

September 2025 – Present

- **Designing** an AI-driven content generation system using **Node.js** and **Hugging Face Transformers** to automate video creation for YouTube, **projected to save 10+ hours of manual work per week**
- **Developed** internal automation and web-scraping tools using **Google Apps Script** to streamline workflows, **reducing manual effort by 30%+ and doubling usable data for analysis**

TECHNICAL PROJECTS

Quote Battle

East Lansing, MI

Full-Stack Voting App

August 2025

- **Built** a full-stack voting app using **JavaScript, Node.js, Express, React, and Postgres (Supabase)**, enabling **real-time voting with a dynamic leaderboard and reliable data**, boosting **user engagement**

TECHNICAL SKILLS

- Programming: JavaScript, Python, C++, HTML/CSS, PyTorch, Hugging Face, Google Apps Script, SQL
- Tools & Cloud: AWS, GCP, Docker, Linux/UNIX, Git
- Certification: AWS Certified Cloud Practitioner

HONORS & AFFILIATIONS

- Tau Beta Pi Engineering Honor Society
- Honors College Excellence Scholarship & International Tuition Grant
- Dean's List (7 consecutive semesters)
